The Mile-Around Woods Trail North Bennington, VT

This map was created using the GLOBAL POSITIONING SYSTEM (GPS), which utilizes 24 satellites in predetermined orbits around the Earth approximately 16,000 miles in outerspace. The U.S. military uses these same systems to navigate. The GPS is accurate to one nano-second as it is calibrated to the ATOMIC TIME CLOCK, and it requires 4 satellites to be in orbit in the visible sky in order for the receiver to work.

400 0 400 Feet

- Farm Roads
- Stream
- Pond
- Parking Area

The Mile-around Woods Trail is located off Knapp Road in North Bennington, on the height of land southwest of the Park-McCullough House.

The base map was prepared by the North Bennington Graded School and Jim Henderson of BCRC on May 24, 2000.
